

## ISEA Project Phase III FDP(Online)

on

## Advanced Threats & Security Mechanisms for Wireless and IoT Networks

**January 5th - 9th, 2026**

Department of Computer Science  
and Engineering, Maulana Abul  
Kalam Azad University of  
Technology, West Bengal, NH-12  
(Old-NH-34), Haringhata,  
Pin- 741249

The FDP (Online) on Advanced Threats and Security Mechanisms in Wireless and IoT Networks offers focused, expert-led training on emerging cyber risks and modern defense techniques. Through demonstrations and hands-on activities, participants gain practical skills to secure evolving Wireless and IoT systems.

Participants should apply through the following links.

Site:
