## ABOUT MAKAUT, WB

The Government of West Bengal set up an expert committee on December 31, 1998, under the Chairmanship of Prof. A. P. Mitra, Eminent Scientist to explore the necessity and scope for establishment of an Engineering/Technology University in the state of West Bengal. The University came into operation formally with the assumption of the office of the first Vice Chancellor on January 15, 2001 as a sequel to the promulgation of THE WEST BENGAL UNIVERSITY OF TECHNOLOGY ACT, 2000, under the West Bengal Act XV of 2000 passed by the West Bengal Legislature. The University started its academic programme, from July 16, 2001 following a Notification from the Department of Higher Education, Government of West Bengal dated June 15, 2001 through the affiliation of Engineering and Management Institutions / Colleges and has entered the Seventeenth year of its functioning. The University is included in Section 2F and also in Section 12 B of UGC and a recipient of UGC Grant. The University is an equal opportunity, affirmative action institution and do not distinguish on the basis of gender, caste, creed and religion and it wants to grow nurturing innovative/ novel ideas that would touch all segments of the society especially the marginalized ones. The technology is nurtured from a broad social perspective and are organizing postgraduate courses in basic and applied sciences with interfaces to social sciences. The University has introduced new courses in emerging areas to develop, enhance and strengthen our position in research and higher education. It strives for optimum utilization of resources and believe in unleashing individual initiative for entrepreneurial development without compromising the collective need. The University is steadfast in its twin objectives: a) to serve as a Centre of Excellence in teaching and research in technology and management area b) to provide framework of industrialization based on knowledge economy. For emerging as a Centre of Excellence, the University has created seven Schools of Studies viz. School of Computational Sciences, School of Engineering Sciences, School of Biotechnology & Biological Sciences, School of Management and Sciences, School of Natural & Applied Sciences, School of Energy & Environmental Sciences and School of Food, Pharmaceutical and Medical Science & Technology comprising presently seventeen departments. viz. Department of Computer Science & Engineering, Information Technology, Biotechnology, Bioinformatics, Material Science & Technology, Applied Science, Forensic Science, Pharmaceutical Science & Technology, Food Science & Technology, Renewable Energy, Environmental Science, 14 Microelectronics & VLSI, Industrial Engineering and Management, Media Science, Management, Travel and Tourism Management & Hospital Management,. Apart from that University is equipped with some significant Centre of various Schools viz. Geo informatics and Spatial Sciences, Agro Bio- technology, Bio Resource Management & Bio Economy, Waste Utilization, Robotics & 3D Printing, Biomedical Engineering. The M.Tech. course in Biotechnology is supported financially by Department of Biotechnology, Government of India. In addition to the UG/PG/certificate Ph.D. programs in emerging areas are also done by the various Schools of MAKAUT. MAKAUT: The Freedom of Choice for Students Maulana Abul Kalam Azad University of Technology (MAKAUT), West Bengal is aware of the technological revolution, resulting in requirement of new skill sets in the job market. Accordingly, the University has restructured its educational programmes and put more stress on courses based on Artificial Intelligence, Cyber Security, Data Analytics, Robotics, Digital Marketing, Forensic Science etc. In addition to B.Tech courses in CSE and IT, MAKAUT has introduced UG and PG courses in these newly developed fields. These are introduced after analysing the market demand. As the nodal university of the state in technical and professional education, MAKAUT is anxious to take care of the new requirement the University realised much before the crisis triggered by corona

pandemic that much stress is to be given to digital education. That actually gave it the lead in fast implementing the new digital pedagogy during the pandemic. COVID has accelerated its endeavour towards digital education in the last one and a half years. MAKAUT wants to stand beside its students and have adopted digital technology for assessment and evaluation too. MAKAUT provides affiliation to 200 colleges offering traditional, as well as modern courses in Engineering & Technology, Pharmacy, Architecture, Management and Applied Sciences. It has introduced a plethora of modern courses to improve the employability of our students and encourage their entrepreneurship ability. At the same time MAKAUT is asking them to opt for Massive Open Online Courses (MOOCs) to encourage self-learning, continuous learning, and lifelong learning. The aim is to see them established in life. MAKAUT should be the right choice of the students, in terms of experienced faculties, affordable fees, modern courses, adequate infrastructure for online mode of teaching, state of the art laboratories, library facility (along with digital library), separate hostels for boys and girls and the lush green campus at Haringhata. In a nutshell, MAKAUT gives the option before the young generation to walk along a career path of their choice and prosper in life. 15 When the natural flow of life was suddenly disrupted by Corona Virus many students have returned from foreign countries and have been forced to discontinue their studies. MAKAUT opened its doors to admit them in matching courses either in-house or in affiliated colleges. Students and their guardians are also afraid to send their children to foreign countries or in other Indian States for higher studies due to this pandemic. MAKAUT with its variety of modern courses can be the right choice for them. In today's digitalized world, tradition is fast giving way to a new lifestyle, because of which the structure of entire teaching-learning process is undergoing a sea change. Many stereotyped courses are not always able to guarantee employment to the newcomers in the job market. At the same time prospects of new jobs and entrepreneurship are opening up every day in new and innovative fields. MAKAUT is always upgrading itself for acquiring new skills. Actually skill has two aspects -meritorious and top up. MAKAUT is ready to guide the students to build the foundation of all round skill development, so that they can prosper in life.

## VISION

To achieve the status of a globally ranked premier University in the field of Science, Technology, Pharmacy, Architecture, Management, and interdisciplinary areas for the creation of high-calibre professionals with environmental consciousness, social, moral and ethical values along with the competency to face the new challenges of rapid technological advancements.

## MISSION

- To create and disseminate knowledge both nationally & internationally towards the transformations of the civilization into a knowledge-based society
- To institutionalize the extension and field outreach activities with a view to transform the university system into an active instrument for social change
- To develop liaison and collaboration with the globally recognised academic institutions in order to inject new and fresh thinking in teaching, learning and research

To generate intellectually capable and imaginatively gifted professionals and successful entrepreneurs having environmental consciousness and ethics who can work as individual or in group in multi-cultural global environments for continuing significantly towards the betterment of quality of human life

## INTRODUCTION

A scholarship is a form of financial aid granted to a student based on their academic merit with the intention of supporting them in their academic endeavours. This will increase their chances of finding work and, eventually, achieve global socioeconomic parity. This guidebook of information about scholarship programmes for students was put together with the goal of serving as a guide. All of the information in this pamphlet is accurate as of the publication year. Necessary changes, if any, will then be incorporated in upcoming revised editions.
